INTRODUCTION

PART I

| TRANSPORTATION. TRANSPORT TECHNOLO | GICAL MACHINERY |
|---|-----------------|
| Shcerbakov V.S., Korvtov M.S., Kamuz N.A. | |

| System for grounding and increased to sustainability mobile hoisting machine with screw supports | |
|--|----------------|
| | |
| Blyankinshtein I.M., Kashura A.S. | 8 |
| The analysis and synthesis of laser monitoring systems of vehicle geometrical parameters | |
| Vizovitin V. N. | 13 |
| Initial heating and its influence on ICE's crankshaft sleeve bearings' state | |
| Petrov A.P., Petrov K.A. | 16 |
| Influence of valves design on efficiency of cooling system fans | |
| Dubrovskaja O.A., Dubrovskju S. A., Dubrovskju A.F., Alyukov S.V. | 23 |
| About analytical representation of the elastic-dissipative characteristic of the automobile's suspension | |
| Zhukov Y.F., Zhukov O.Y. | 26 |
| Variant of the transportno-technological car for the Russian conditions | |
| PART II | |
| ENGINEERING. BUILDING MATERIALS AND STRUCTURES | |
| Sologaev V.I., Krestyanikova I.V. | 30 |
| About determination of soil filtration parameters reclaimed territory by a method of spreadsheets | |
| Nagaev D.O., Stolbova S.Yu., Stolbov Yu.V. | 35 |
| Probe of accuracy of high-rise position of a surface at the device rubble the bases of a highway a method | |
| chocking | |
| Prokopets V., Golubeva E. | 39 |
| Improving deformative properties of soil cement for the lay-out of the roadbase | |
| Berkasova T.A. | 43 |
| Manufacturing of polystyrene-foam structure-forming filler for «ANKOM» exterior panels | |
| PART III | |
| MATHEMATICIAL MODELING. SYSTEMS OF AUTOMATION DESIGNING | |
| | 40 |
| Epifantcev B.N., Kurnosov V.V. | 48 |
| On the possibility of identifying undermining through the outer contour of the object of protection of | |
| information on thermal radiation | -4 |
| Kalinin M.A. | 51 |
| The most informative human face patterns detection and the way of its formalization | - 4 |
| Galdin V.N. | 54 |
| Bases of the designing of hydroshock pulse systems | |
| Mikheyev V. A. | 58 |
| Mathematical model of a diesel locomotive engine as object of the control and diagnosing | |
| Gorbunkov V.I. | 65 |
| Role of the light-tight cavity in the establishment of equilibrium radiation of the gas-discharge lamp | |
| PART IV | |
